

Greenock Golf Club

Winter Play

Dear Charles

For those members who have not put their clubs up the loft for the winter, please be aware of the following:

1. Apart from November stableford competitions, all players must play from YELLOW tee markers. These include new tees on 5 and 11 plus back of ladies tee on 13th and ladies tee on 14th.
2. All players MUST use mats from fairways or move to the side and play from semi rough. (a number of players have been witnessed still playing from fairways this week)
3. All pitch marks must be repaired as greens cannot self repair in winter. We are one of the few courses who are staying on full greens for the winter. I will review this decision if I see that greens are being damaged by players not observing basics in course management.
4. Traffic Management measures will be put in place next week. Please ensure these are all followed for both player safety and course management purposes.

Hopefully we get a reasonable winter and we can all enjoy winter golf this year without suffering from trenchfoot.

Thanks

Brian Fitzpatrick
Greens Convenor
