

## Greenock Golf Club

### Covid Regulations - VERY IMPORTANT

Dear Charles

Following the opening of the Golf Courses members were advised that the VMS system MUST be used for the booking and allocation of ALL tee times. This includes casual golf on any day as well as competitions.

This ensures that the Club maintains a full "Track and Trace" record as we must do by Law. It also avoids congestion at the car park, or front of clubhouse.

As time goes on it has been noted that some members are turning up to play without booking. THIS IS NOT PERMITTED. All games must be booked using the VMS system, if you cannot access the system please contact the secretary and she will reset your record to enable you to book.

Given the current Covid situation in Inverclyde it shows how important Trace and Trace is and as we have no wish for the club to be closed due to covid using the booking system is mandatory ON BOTH COURSES even if you are only playing a few holes.

Your assistance with this matter is greatly appreciated, following the rules will ensure safety for all our members and visitors playing the courses.
